BCT POST SLEEVE

FMM02

SHEET NO.	REF. NO.
1 of 2	F-34-76

SPECIFICATIONS

Post sleeves shall be manufactured from standard-strength steel pipe conforming to ASTM A53 Grade B. After cutting the pipe shall be zinc-coated according to AASHTO M111 (ASTM A123).

Dimensional tolerances not shown or implied are intended to be those consistent with the proper functioning of the part, including its appearance and accepted manufacturing practices.

INTENDED USE

The BCT post sleeve is inserted into the ground-line hole at the base of breakaway cable terminal post (PDF01). The anchor cable (FCA01) passes through the sleeve and is secured by the bearing plate (FPB01). This anchor assembly is a component of the trailing-end terminal (SEW02a-b), the breakaway cable terminal (SEW03a-b and SEW04a-b) and the modified breakaway cable terminal (SEW05).
