5.3 SOQ Volume III – Technical Information

The description under the first paragraph is revised to read:

the new construction, rehabilitation, and/or improvement of more than one traffic-heavy, limited access highway projects with multiple travel lanes, bridges, and interchanges with a total aggregate construction value of a minimum of \$500 million where the relevant work was completed within the last ten (10) years, and where each project included to comprise the aggregate amount had a construction value of at least \$100 million. For purposes of this requirement, “completed” shall mean that the project has achieved Substantial Completion, as defined by the contract governing the project, by the due date of this SOQ; with the exception that, and only for prior design experience, the project is considered “complete” if the designer has completed 100% of the project’s design by the SOQ due date.
