Question 7

Milton Rd & US 180 Master Plans - Corridor Improvement Qualities Survey

What qualities should be most important when planning improvements for Milton Road, Humphreys Street, and US 180 (Fort Valley Rd)?

- Yes

Question 8

I live near US 180. I hear people from other parts of Flagstaff and outside of Flagstaff complain about congestion on US 180, but for the most part my neighbors do not. This is because it becomes congested on winter weekends when Snow Bowl is closing, but the other 99% of the time, it is fine. Please do not widen or "improve" this road to carry more traffic. It will only bring more traffic, more speed, and more problems.

Question 6

- Car/vehicle

Question 7

Milton Rd & US 180 Master Plans - Corridor Improvement Qualities Survey

What qualities should be most important when planning improvements for Milton Road, Humphreys Street, and US 180 (Fort Valley Rd)?

- Yes

Question 8

Generally traffic flows very well on US180 (not counting busy winter days). The main concern is the ability of people in Coconino Estates to get in and out of their neighborhood safely. I think 1 or 2 traffic circles between Navajo and Louise along US180 would help with this. I would be extremely opposed to another traffic light on this section of road. I think there needs to be a better/safer way for pedestrians to cross Humphreys near Dale or Elm. A bridge/tunnel would be nice but so would a pedestrian cross walk with flashing lights. Using features to pinch the road similar to the pinch at Sechrist would help slow traffic down too.

Limit Property Impacts & Project Costs: 4
Limit Social & Environmental Impacts: 5
Public Support: 4

Question 5

- Bicycle
- Walk/Electric Scooter/Wheelchair

Question 6

- Bicycle
- Car/vehicle

Question 7

- Yes

Question 8

Humphreys has the opportunity to expand downtown and be a great live/work/shopping street. Currently has few pedestrian crossings, causing a barrier to safely access downtown from west downtown. Add bike lanes if possible and increase crossing opportunities, especially near Flagstaff High School. Also widen sidewalks to make it more comfortable to walk since cars drive fast. Same for US180. This road needs safer crossing opportunities, especially to the schools. Has fairly good bike facilities but lack of crossings makes it difficult to traverse.

Question 7

- No

Question 8

As with Milton, I will avoid Humphreys when possible during certain times of day and times of year. There aren't any options when heading northwest, but generally after getting past Humphreys, the drive on 180 is nice. Site distance is an issue with some of the turns out of Coconino Estates onto 180 and I tried making the left from Forest Ave once at the wrong time of day and I won't be trying that again. I would frequently use the parallel FUTS trail if I lived in the area.

Question 6

- Bicycle
- Car/vehicle
- Walk/Electric Scooter/Wheelchair

Question 7

- Yes

Question 8

The paved urban trail system is great on 180. However, the fact that it requires crossing the road at Sechrist School causes major safety issues, as well as traffic backups. Consideration of a pedestrian bridge and/or adding a continuous urban trail on the North side of the road (Sechrist School side) back into town would be helpful. Also, the intersection at Forest Hill and 180 is super dangerous from a pedestrian and cyclist perspective--there needs to be a pedestrian bridge there to improve safety and minimize traffic back-ups.

Question 8

This corridor gets clogged on holiday and winter weekends. Some small changes in recent years have been improvements (Mountain Line to Snowbowl and restricting left turns from Forest Ave). However, the real problem here is two-fold:

- 1) It is simply overcrowded
- 2) There is no alternative for getting from west of Flagstaff (Snowbowl Area) I-17 US-89A other than Highway 180

These problems cannot and will not be alleviated without a) capacity improvements to 180, and b) a viable alternative route from west of Flagstaff to I-17 south

- Car/vehicle

Question 6

- Car/vehicle

Question 7

- No

Question 8

Please do not implement Door Zone bike lanes or bike lanes that interact with multiple driveways (right-hook collision situation). The speed on Humphreys St is slow enough, and bikes go fast enough downhill, for mixed traffic if the street is set up for success and avoids design elements that are misunderstood by drivers (unsafe bike lane --> drivers get frustrated that you aren't using it; shoulder stripe --> makes it look like a bike lane that you're not using).
For the US180 section, consider benchmarking the Moab Canyon Pathway.

Milton Rd & US 180 Master Plans - Corridor Improvement Qualities Survey

What qualities should be most important when planning improvements for Milton Road, Humphreys Street, and US 180 (Fort Valley Rd)?

Thank you.

Valley Rd. Access to Fort Valley and 180 should occur west of town possibly via I-40 to remove traffic through town.

Milton Rd & US 180 Master Plans - Corridor Improvement Qualities Survey

What qualities should be most important when planning improvements for Milton Road, Humphreys Street, and US 180 (Fort Valley Rd)?

Question 8

The fact that "Improve Safety" is only briefly defined in the preliminary instructions for the survey fundamentally corrupts the results of the survey.

A cyclist or pedestrian will most certainly think the "Improve Safety" is a good option, but unless they are very closely following the directions of the survey, they won't know that this means "vehicular safety" only.

Question 7

- Yes

Question 8

In my opinion, the only improvement necessary on Fort Valley Rd. is a crosswalk signal at the urban trail/bike path crossing at Forest Ave. Please don't think about adding driving lanes or any sort of bypass route. If people are worried about traffic congestion during the ski season, shuttles to Snowbowl would be a much better solution. Also, I hope Flagstaff will prioritize adding and improving bike lanes and bike path/urban trail routes in general, and certainly on the Milton/Humphrey's/Fort Valley corridor.

Question 8

Milton Rd & US 180 Master Plans - Corridor Improvement Qualities Survey

What qualities should be most important when planning improvements for Milton Road, Humphreys Street, and US 180 (Fort Valley Rd)?

I don't know how to do it, but the intersection needs to be redone. There's a continual back up before/after school is out in that area. US180 is the only way to get to communities and recreation in the area. A new road that would allow traffic to flow off of Route 66 to the neighborhoods of Cheshire or US 180 would help the congestion on Milton and US180, but then Route 66 would be worse than what it is now with a 2-lane road. The separate walking/bike path is good for safety issues along US 180. I would think if we could have separate purposeful built walking and bike patch separate from streets, this would encourage locals to think twice about using cars, especially if electric bike were able to use the paths.

Question 7

Milton Rd & US 180 Master Plans - Corridor Improvement Qualities Survey

What qualities should be most important when planning improvements for Milton Road, Humphreys Street, and US 180 (Fort Valley Rd)?

- Yes

Question 8

Sidewalk on the east side of 180 seems critical. There are no easy walking options for those living in multifamily properties on that side of the highway, which forces them to cross the street illegally to access the urban trail on the opposite side of the street. This can be very dangerous during busy times.

Limit Property Impacts & Project Costs: 4
Limit Social & Environmental Impacts: 4
Public Support: 4

Question 5

- Other - Bike, Run, Walk, Car

Question 6

- Other - Bike and Run closer in, Car farther out

Question 7

- Yes

Question 8

This route needs to be safe and smooth. Now largely commercial in town, it can be dicey to cross Humphries in non-ski season. BUT - bypassing this route with some of the prior proposed routes that take visitors out of the town area of Flag will do a huge disservice to local businesses. US 180 desperately needs a wide safe bike,run,pull-off lane. The upgrade to the Cheshire curve was long overdue but did NOT improve bike rider or runner safety because of lack of a lane around both curves before and after the service station.

Question 8

The need for improved traffic flow on Ft Valley & Humphrey's is minimal, in my opinion. The traffic on these roads is primarily recreational in nature. As a local accessing businesses, the bike lanes & separated FUTS extending to the Museum of Northern Arizona are sufficient for me to navigate on my bicycle, and there are plenty of lights to allow for crossing

Milton Rd & US 180 Master Plans - Corridor Improvement Qualities Survey

What qualities should be most important when planning improvements for Milton Road, Humphreys Street, and US 180 (Fort Valley Rd)?

Humphrey's even when there are a lot of cars on the road. When I am driving to a recreational destination such as the Grand Canyon or AZ Snowbowl, I have the option to travel on non-peak hours to avoid the crowds, or accepting that the small price I pay for playing in Northern Arizona is sitting in 20-30 minutes of stop & go traffic. I think that the transportation district & the resort could do more to make AZ Snowbowl shuttles an appealing option for skiers, particularly for locals (one idea would be offering season rentals on lockers -- I would be more incentivized to take the bus if I didn't have to carry my skiing equipment on every time), but those options are likely outside of the purview of ADOT.

Question 8

180 I think is fine. The transition from 66 to 180 via Humphreys is a cluster, with very limited room to expand roads and improve traffic capacity. Honestly, if I had authoritarian power to do whatever I wanted, I'd build a big bypass road straight from the Flagstaff Ranch Rd exit on I-40 north to meet 180 just west of Cheshire. That would divert all Snowbowl/Grand Canyon bound traffic out of downtown, but, ugh, would probably have some tough environmental impacts.

Question 8

Very busy all year round these days. Although I hate writing this but we do need another road off I-40. Such as the A1 Mtn exist to south Snowbowl Rd. Yes, the Friends of Baderville will protest, however we do not need a "Campfire" situation where people could not leave the area and perished in their cars. The Museum Fire let us know that evacuations will be occurring in our future.

Question 8

Between Snow Bowl Road and Roundtree Rd on 180, there is NO safe way to ride a bike. A little bike path OR a sidewalk would be a tremendously welcome addition!!! There is about 10 inches of asphalt beyond the white line to try and maneuver. NOT Safe in any way with cars and trucks going 65 mph within a couple feet. Please PLAN for the people living in Fort Valley to be able to move around the area using a safe path along 180. Thanks very much!!

Milton Rd & US 180 Master Plans - Corridor Improvement Qualities Survey

What qualities should be most important when planning improvements for Milton Road, Humphreys Street, and US 180 (Fort Valley Rd)?

Question 6

- Car/vehicle

Question 7

- No

Question 8

Hard to generalize across both of these - important, I think, to keep community character in mind along Humphreys, but environmental considerations (especially wildlife) and road safety much more important along US 180. Public transit (eg rapid route buses) to access the cultural amenities along 180 and to reach all the way to Snowbowl Rd and other snowplay destinations are crucial for reducing congestion and improving safety.

What qualities should be most important when planning improvements for Milton Road, Humphreys Street, and US 180 (Fort Valley Rd)?

Limit Property Impacts & Project Costs: 3
Limit Social & Environmental Impacts: 5
Public Support: 2

Question 5

- Bicycle

Question 6

- Bicycle

Question 7

- Yes

Question 8

180 has insufficient pedestrian/bike crossings. It is a very dangerous road, especially for the many residents who try and cross the road for school or to access Fratelli's/Late for the Train. The road should NOT be widened - the traffic congestion should be mitigated through a bus rapid transit lane (using existing infrastructure to accommodate a bus). The FUTS trail adjacent to 180 is dangerous as most cars pull out through the intersection trying to enter 180 and traffic on 180 turning on to side roads do not properly account for bikers and pedestrians. Widening the road to accommodate car traffic will not alleviate congestion and is not worth the enormous cost.

Question 8

The intersection of Humphreys and Hwy 180 is HORRIBLE !!! If and extended vehicle (semi truck or truck with travel trailer) are making a left turn off Humphreys onto Hwy 180 they have a difficult time making the turn. If a vehicle is in the outside lane of Hwy 180 waiting for the light to change it gets pretty scary as these extended vehicles come close to hitting the vehicle as they do not have enough room.

Question 6

- Car/vehicle

Question 7

- No

Question 8

The logistics of this I believe to be challenging, but paving a road between Baderville and i40 would be extremely helpful. An example would be some of the Forrest service roads that get you from Baderville to Forrest service road 506 that turns into Mountain Road and is the A-1 Mountain interchange at i40.

More law enforcement support on 180 during snow season is also essential. It can be SCARY with the people parked on the roads trying to sled. Like young children running in and out of the highway scary.

Another smaller helpful item would be adding green turn arrows at the light at the intersection of 180 and Fremont Blvd/ Shultz Pass. I was actually surprised it wasn't added when the light first went in as it can be extremely difficult to turn left from 180 onto Fremont.

Question 5

- Car/vehicle

Question 6

- Car/vehicle

Question 7

- Yes

Question 8

Humphreys should NOT be widened. Neither should US 180. That will become the near equivalent of a freeway running through downtown and the northwest corridor. Please DO NOT add traffic lights to Humphreys - they will only slow down traffic even further. However, a roundabout at the corner of Humphreys and Aspen would be a great improvement and keep traffic flowing. The current light there stops traffic to numerous vehicles for the occasional car traveling east on Aspen. Regarding US 180, an alternative route to SnowBowl is greatly needed, for example a road from I-40 West over the mesa south of Baderville would be a great improvement. It is difficult for residents of the US 180 corridor to drive into town on weekends during snow season. Additionally, the City should NOT build any homes at the corner of US 180 and Schultz Pass Rd. There is so much congestion already! That land should be used for a small park or green space.

- Bicycle

Milton Rd & US 180 Master Plans - Corridor Improvement Qualities Survey

What qualities should be most important when planning improvements for Milton Road, Humphreys Street, and US 180 (Fort Valley Rd)?

Question 6

- Bicycle

Question 7

- Yes

Question 8

Having worked for Guardian ambulance for 10 years I have personally responded to a number of vehicle vs. bicycle collisions along the US 180 bike path, most resulting from a northbound bicycle being struck by an automobile from a west side street. I now commonly wait 30-60 seconds until such a vehicle has departed if I am riding north, but others are often not aware of the hazard. A separated bike lane on the east side of the road would do wonders to alleviate injuries resulting from such collisions.

What qualities should be most important when planning improvements for Milton Road, Humphreys Street, and US 180 (Fort Valley Rd)?

Question 6

- Bicycle

Question 7

- Yes

Question 8

Hard to imagine a solution for this section that will work except either 1) If/when climate change makes Snowbowl close... which will probably happen just as we're finishing whatever traffic solution we find to this problem. or 2) we develop true mass-transit solutions for the major attractors (eg schools and Snowbowl) that people will actually use. I tried using the bus to Snowbowl twice and gave up, there was too little capacity. Similarly if we can't find good transportation alternatives for schools (instead of what seems like every parent driving every child to school) it remains a problem. I would much prefer alternative #2 because it could develop into healthier children and neighborhoods and not just be the standard solution of applying more and more traffic lanes, which divide and diminish the character of a town. Steamboat Springs has committed to truly workable public and tourist transportation for their ski area and their downtown area as have other towns, and I suspect the same would be true of school transport as well. BTW I ride a bicycle on streets adjacent to Humphreys. The current configuration of Humphreys is not comfortable for a bicyclist and not pleasant for pedestrians.

Question 8

"The curve" on 180, between Magdalena and Hidden Hollow/Forest Hills, is extremely dangerous for walkers, runners, bikers, etc. I regularly run on this part of 180. I think the safety of pedestrian/non-vehicular traffic should be prioritized here. A crushed gravel FUTS-style path, separated from the highway by a barrier such as a guard rail, would be ideal. I also believe speeds should be reduced between the Summit Fire Station just north of this curve and the stoplight at Cheshire. The allowed speeds are too high for an area with adjacent residences, higher pedestrian/non-vehicular use, etc.

Question 7

- Yes

Question 8

Add wider bicycle & walking lanes on 180
Add roundabouts where stoplights are especially at Humphreys/Columbus; Add roundabouts for side streets to enter as well.
During high snow play times: Add obvious diversion to southbound traffic to Switzer Canyon, which also would need roundabouts for that route; Work with forest service not to allow any more snow play activities or expansion of snow play businesses; Work with forest service and yourselves to create snow play areas off the freeway exits south, west, & east of town, as well as Lake Mary Road - many many people who come up here just want a place to park so they can build snowmen and throw snowballs and take pictures & picnic, so all that is needed is the parking lot and a big field or place they can run around - some can include easy sledding.

Question 5

- Car/vehicle

Question 6

- Car/vehicle

Question 7

- Yes

Question 8

The speed limit should be reduced; in my opinion, the speed limit should be reduced down to 25 mph on those roads. My family and friends are put in unsafe positions daily, every time they need to merge onto, or off of Humphries and 180. Additionally, both of those roads are either adjacent-to, or a block away from schools. I also believe a stoplight at 180 and Forest would improve safety, as well as improve the environmental impact on the surrounding neighborhoods. A stoplight at the elementary school on 180 might also be a good idea.

Question 6

- Car/vehicle

Question 7

- Yes

Question 8

The speed must be reduced in the residential area, especially from Navajo to the museum. The current speeds and blind curves make entering and exiting side streets dangerous and difficult. Not only is 35mph too fast but many, if not most drivers are attempting to go much faster and near misses, road rage and excessive noise are common.

Question 8

PLEASE slow the traffic down on Fort Valley Road! It has become a highway thoroughfare through an historic quiet neighborhood. Twenty five miles per hour beginning at and up too the Museum of Northern Arizona or "have the guts" to slow traffic to 19mph like on the NAU campus. It has become impossible to safely enter Fort Valley traffic from the neighborhood or businesses and apartment complexes on the East side of the road. I have seen many near misses and several accidents. A

high school boy was hit on his bike last year, had his jaw broken, and missed half his junior year at FHS. Does another tragedy have to happen before speed problem is mitigated? The turn lane has become a passing lane too. Fort Valley Road has become dangerous.
