705 Preformed Polymer Pavement Marking  
 705 Preformed Pavement Marking - Type III (Temporary, Non-Removable)  
 ADOT Stored Specification: 705PVMRK, Sections 705-1(A), 705-1(D), 705-2.03  
 Responsible Section: Traffic Group

Material Property	Specification/ Test Method	Requirements	Results	Pass / Fail
Composition	705-2.03	Type III preformed pavement markings shall be a retroreflective layer on a conformable metallic backing intended for marking applications where removal is not a requirement.		
Color	705-2.03	The marking material shall be white or yellow conforming to standard highway colors.		
Adhesive	705-2.03	The markings shall be precoated with a pressure sensitive adhesive capable of adhering to roadway surfaces under climatic and traffic conditions normally encountered in the construction work zone when applied in accordance with the manufacturer's instructions and without the use of heat, solvents or other additional adhesives.		
Exposure	705-2.03	Newly applied markings shall be capable of being immediately exposed to traffic without pickup or distortion by vehicles.
