RE: 2014-2018 TIP AMENDMENT #4

The following informational and/or administrative changes were made to the TIP since our last meeting:

The Federal Transit Administration is requiring that all **FTA Section 5310 Grant Awards** be listed in their regional TIP's. Until this requirement is met, the FTA is delaying the release of Section 5310 program funds. **To meet this requirement a SEAGO has added a section on the TIP to track our region's FY 2013 Section 5310 Awards.**

City of Douglas (DGS12-05): At the request of ADOT, the Chino Road Extension Phase I project location was changed from Chino Rd: 3rd St to SR80 and the length from .12 miles to Chino Rd: 3rd St to 9th St. and the length to .9 miles.

Greenlee County (GEH-BR-03, GEH-BR-04, GEH-BR-05, GEH-BR-06, GEH-BR-07): A JPA is being finalized for load testing on these 5 bridge projects. The estimate to test these bridges was \$509,220 in Federal funds and \$30,780 in local match. The project total is \$540,000. The updated costs were spread evenly over all 5 projects.

The following TIP changes were approved by the TAC:

City of Douglas (DGS13-05): Joe Carlson Safe Routes to School Project (Design Phase) will not be ready to obligate in FFY14 and will need to be moved to FFY15. As a result of moving the Design Phase to FFY15, the Construction Phase of the project will need to be moved to FFY17. Per ADOT updated cost estimates were \$150,000 in Design and \$250,000 for Construction. The TIP has been amended to reflect the new estimates.

Santa Cruz County (SCC12-12): River Road and Pendelton Drive Safety Improvements HRRRP Project, was scheduled to obligate in FFY13. The construction phase did not authorize in 2013. It will need to be placed back in the TIP. The HRRRP projects are still under ADOT evaluation. It was recommended that the project be programmed in FFY16 to serve as a place holder year until a decision is finalized on HRRRP projects.

Graham County (GGH13-04): ADOT advised Graham County that cost for the Design Phase of their Reay Lane Irrigation Canal Relocation Project would be \$127,000. Currently the project is programmed for \$73,000. An additional \$54,000 in HSIP funding is needed so that an IGA Amendment can be completed in order to get the authorization to start work. If approved, the project will be programmed for \$73,000 in HRRRP (state HSIP) and \$54,000 in local HSIP.

SEAGO (SEA14-01): At the March 20th TAC meeting, the TAC voted to extend the SEAGO Region Traffic Count Program and contract with Works Consulting at the cost of \$75,000. Under the contract, Works Consulting will continue to update the Region's Highway Performance Monitoring System (HPMS) and Certified Public Mileage (CPM) data. They will also conduct up to 125 traffic counts and will continue to enter traffic count data collected by local jurisdictions into the Region's Traffic Data Management System (TDMS).

Thatcher (THR12-13): At the March 20th TAC Meeting, the TAC reviewed the Project Status Report for the ROW Phase of the Church Street Widening Project. It was determined that the project was not in the position to obligate in FFY2014 due to delays in the environmental process. The TAC made the decision to move the project to FFY2015.

I will attempt to answer any questions you may have at the meeting.
