Dear Mr. Omer:

The Maricopa Association of Governments' (MAG) Fiscal Year (FY) 2014-2018 Transportation Improvement Program (TIP), approved by the MAG Regional Council on January 29, 2014, requires amendments, administrative project modifications, and clerical corrections. The Fiscal Year 2015 Arterial Life Cycle Program, Agenda item 5C, that includes tables A and B, and Project Changes listed as agenda item 5E in tables C and D, were approved by the MAG Regional Council on June 25, 2014. Additionally a sheet of clerical corrections, identified as Table E, is included in this request as Administrative Modifications to the MAG TIP that are not required to be heard by Regional Council. As the Governor's designee, the Arizona Department of Transportation (ADOT), Multimodal Planning Division is responsible for approval of TIPs and TIP amendments in the State of Arizona. MAG requests your approval of the amendment and modification of the TIP, which is necessary to ensure the continuation of the projects involved. In addition to approval of the MAG TIP amendment and modification, we also request that Arizona Department of Transportation process the necessary amendment to the relevant STIP as soon as possible to meet the current federal fiscal year requirements.

The approved listings and administrative adjustment in tables A, C, D, and E for the modification to the FY 2014-2018 MAG TIP and the amendment to the Statewide Transportation Improvement Program (STIP) are included in the attached tables. This will be the fourth amendment request to the FY 2014-2018 TIP. All of the projects in tables D and E are regarded as either exempt for air quality purposes or are regarded as minor project revisions that do not require conformity determinations. The projects in tables A, B, and C may be contingent on a new finding of conformity. The request to make a new conformity determination is being sent separately to Federal Highway Administration and Federal Transit Administration.

Your support and the assistance of your staff in ensuring the timely progression of these projects are appreciated. We look forward to a continuing close relationship with the State in meeting the transportation needs of our region. Please contact Teri Kennedy or me if you need any clarification regarding these amendments.

Sincerely,

Dennis Smith
