GENERAL NOTES

1. Curbing is not required when drainage flows transversely away from barrier.
2. Treatment at back of lip curb modified for constructability purposes. Front slope and height of lip curb shall not be exceeded.
3. Thrie-beam terminal connector to thrie-beam splice shall be lapped in the direction of adjacent traffic.
4. Manufacture components according to the AASHTO-AGC-ARTBA Guide to Standardized Highway Barrier Hardware. The number in parenthesis is the guide reference number.
