NOTES CONTINUED:

12. Manufacturer's Name or product brand name and, Model No. or size designation, shall be permanently marked on all lids.

13. The lids shall be permanently marked with "400T" or "500T Electrical High Voltage" if not required otherwise. Lettering shall be 1/8" high and be cast, molded, or engraved into the lid. The lid marking shall be done in such a manner as to not pose a tripping hazard. Pull boxes being installed within another jurisdiction or entity shall be marked with their designation (e.g., "PHX" for City of Phoenix) instead of "400T" or "500T.

14. Two captive 3/8" - 16 UNC hold down hex head bolts (1/2" socket size) and washers shall be provided per lid. The bolts shall be of sufficient length to fully engage the lid's connection to the body. The flat washers shall be sufficient diameter and thickness to avoid damage to the lid when the bolts are tightened. All hold down hardware, including that in the box body, shall be stainless steel. The threaded lid hold down inserts in the box body shall be removable, replaceable and replaceable. Hold down bolts shall be tightened per the manufacturer's recommendations.

15. Two fully recessed lift handles shall be provided for each lid. Size shall be per the manufacturer. However, the configuration shall be such that it does not present a trip or high heel hazard. The spacing requirement applies to the recessed hold down bolt slot or the interface between the lid and body.

16. Only approved boxes shall be used.
