NOTES:

1. See the Specifications for material and construction.

2. Covers shall be secured with 3/8" "L" bolts, nuts and washers, which shall be of brass, stainless steel, or other corrosion resistant material. Stainless steel shall have a chromium content of not less than 18% and a nickel content of not less than 8%. Nuts shall be recessed below top surface of cover.

3. Cover lettering shall be 1" letters cast in standard markings, "HIGH VOLTAGE".

4. See T.S.1-6 for typical installation details.

5. See T.S.1-7 for lift eye slot detail.

6. Steel reinforcing shall be as regularly used in standard products of the respective manufacturer.
