

NOTES:

1. Drilling of pole to be oriented according to pole schedule on plans or as directed by A.D.O.T. Engineer in the field.
2. When two pedestrian push buttons are mounted on a small diameter pole, the lower casting shall have the button at top.
3. Top mounting holes to be field drilled in order to allow for manufacturing variations.
4. The ADOT Electrical Inspector shall be notified before drilling poles for push button assemblies and traffic signal mounting assemblies for exact location.

Item	Dim. A
Pedestrian Signal	87"
Illuminated Message	87"
Signal Face	115"
