**NOTES:**

1. All materials and construction shall conform to the requirements of the Specifications.
2. Mast arms require four 1 1/2" x 1 high strength bolts, ASTM D-3294.
3. See T.S. 4-23 detail B1 for anchor bolt details. Each anchor bolt shall have four hex nuts and two flat washers, all to be furnished with pole.
4. Anchor bolts shall project 4 1/2" above the foundation.
5. Conduit shall project a minimum of 3" above the foundation. Maximum projection shall be 4 1/2".
6. Block out for leveling nuts. See specs for grout requirements.
7. The foundation hole shall be graded and class "C" 3000 psi concrete poured against undisturbed compacted earth.
8. Instable soils may require deeper foundation. See specifications.
9. A 25' coil of No. 4 2
e 8 gauge copper conductor shall be installed before the concrete is poured and connected to pole grounding screw in the hand hole.
10. For inplace design, when specified, see design detail on T.S. 9-1.
12. All dimensions are nominal.
