</tbody>
</table>

Notes:
1. Dimensions are measured to the center of all striping unless noted otherwise.
2. To be installed only when directed by the engineer.
3. Type "C" reflective pavement markers are to be placed outside the gore stripes, offset 2 inches and at 48 ft. spacing.

Tapered acceleration lane:

- 6" white gore stripe, see gore detail.
- 12" white gore stripe, see gore detail.
- 12" white gore stripe, see gore detail.
- 6" white, 10' stripe, 30' space.
- Paved gore area.
- Tapered acceleration lane.

Type "C" RPMS, offset inches from the outside edge of the gore stripe (shown on plans).

Section B-B:
- Application: Phoenix and Tucson Metropolitan Areas
- Application: All other locations
