Subject: Revised Bridge Group Standard Plan Sheet
Microstation v8 Resources

The Bridge Group standard plan sheet has been modified to provide consistency between the various ADOT technical groups. The information block in the upper right corner has been removed and changes were made to the title block in the lower right corner. The new standard plan sheet cell is called THSTR8.

The Microstation v8 Resources, which include the v8 seed files, color table and cell library are posted on the Bridge Group website. These can be downloaded by clicking on the following link: [CADD - Microstation](#)
