BRIDGE BULLETIN 2012-2
Issue Date 6-19-2012

To: All Bridge Designers

From: Jean A. Nehme, Ph.D., P.E.
State Bridge Engineer

Subject: Bridge Concrete Barrier
Structure Detail Drawings SD 1.01, SD 1.02.

Web Site: <http://www.azdot.gov/Highways/bridge/DetailDwg/Railing.asp>

Please note that the following F-Shape Bridge Concrete Barrier and Transition sheets have been updated:

1. SD 1.01; the following modifications were made:
 - a. Revise Title Block: Changed from (32”) Nominal to (34”).
 - b. Revised Item No.: Change Item No. to 6011140 and (32”) to (34”).
 - c. Removed Note: Removed note for 32” barrier height measurement.

2. SD 1.02; the following modifications were made:
 - a. Revise Title Block: Changed from (42”) Nominal to (44”).
 - b. Revised Item No.: Change Item No. to 6011141 and (42”) to (44”).
 - c. Removed Note: Removed note for 42” barrier height measurement.

This update is for clarification only. The technical content and dimensions of the F-Shape Bridge Concrete Barriers remain unchanged.
