

ANTIQUE PLATE APPLICATION

Owner/Lessee Name (first, middle, last, suffix)			
Street Address		City	State Zip
Vehicle Year	Make	Vehicle Identification Number	
Current Plate	Registration Expires	Antique Plate Number	

If you own or lease a motor vehicle which is eligible for either Classic Car plates or Historic Vehicle plates as defined in Arizona law, and you possess a license plate previously issued by this state which has a plate year that corresponds to the vehicle model year when the vehicle was manufactured, then you may apply for authorization to use the plate for registration of the vehicle. If you lease the vehicle but it is not registered in your name, a document showing you as a lessee is required.

The plate must be legible, serviceable, and must not conflict with an existing plate series, and must be painted in the colors as originally manufactured. The vehicle on which the plate will be displayed cannot conflict with the plate type (e.g., motorcycle plate on a passenger vehicle, or truck plate on a car or motorcycle).

A motor vehicle made from what is commonly known as a "kit" or "replica kit", or which is reconstructed so that the basic vehicle is not as originally manufactured, does not qualify.

The Antique plate fee is \$25.00 initial application and \$10.00 annual renewal, in addition to all other required fees.

You may request authorization to transfer an Antique plate, which is already registered in your name, to another qualifying vehicle that you own or lease.

To release an Antique plate to a new owner, you must complete a Plate Notice (form # 48-3302). The new plate owner must then complete an Antique Plate Application and pay the application fee for the Antique plate and all other required fees.

It is unlawful for you to knowingly permit an Antique plate registered in your name to be displayed on any motor vehicle, except the one authorized.

I have read and agree to comply with all of the requirements for this plate.

MVD Use

I certify that I have inspected the Antique plate indicated above and found it to be previously issued by this state with the date of the year corresponding to the model year when the vehicle indicated above was manufactured. The plate is legible, serviceable, painted in its original colors and does not conflict with any existing plate range.
