

AZDOT-2021R1 WorkSpace - Update the Display Styles in existing files

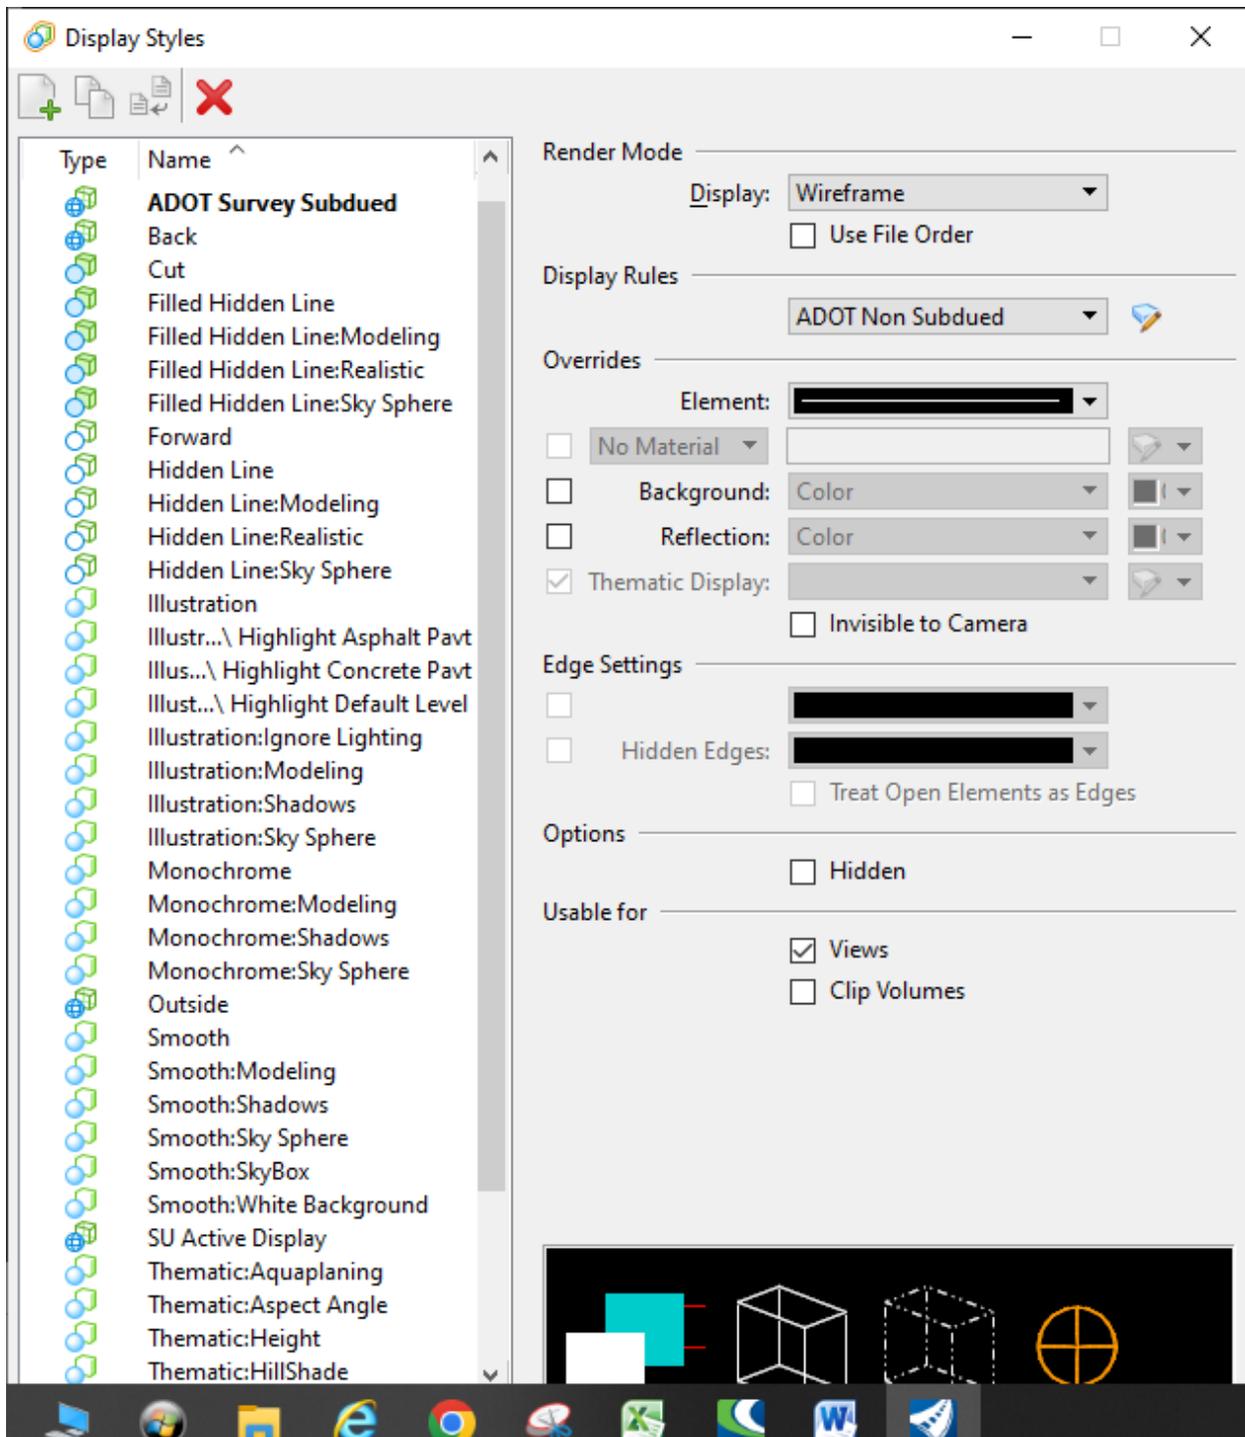

These Display Styles can be updated in the Default (Design) model on current projects. On New files they will be correct.

The consist way to reproduce the correct results is to go to view controls

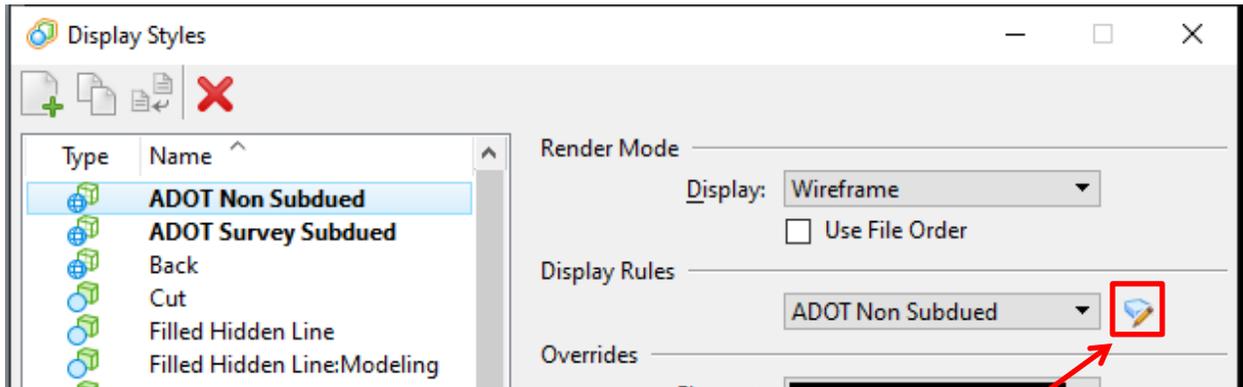

Select the Display Styles icon

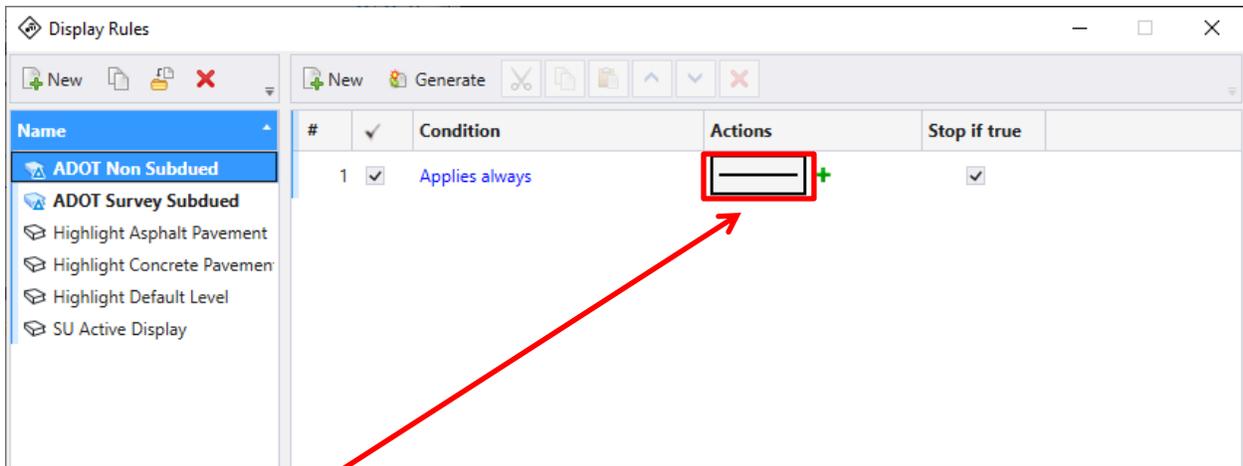

Scroll to the top

Select>ADOT_Non Subdued

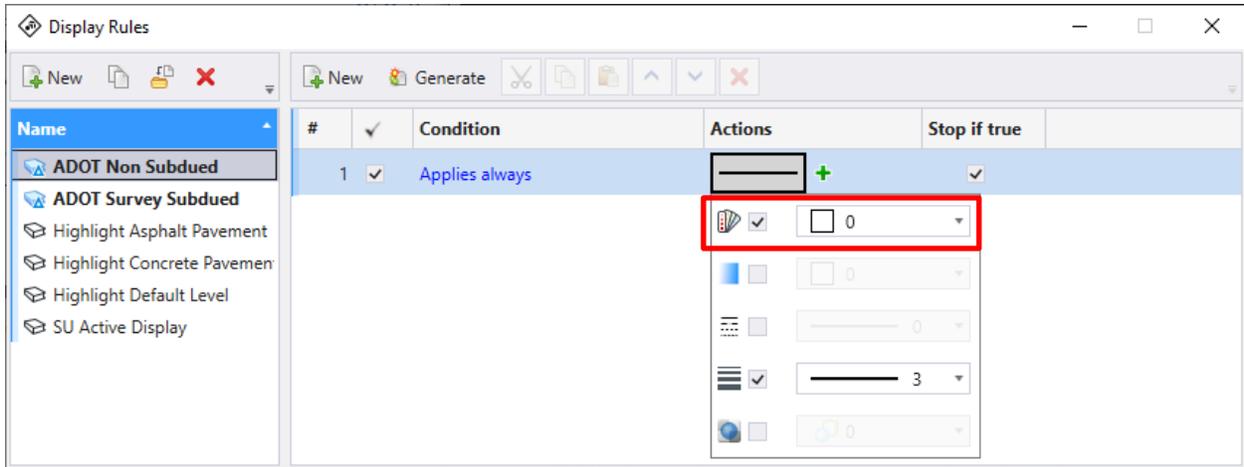

Select the Display Rules icon

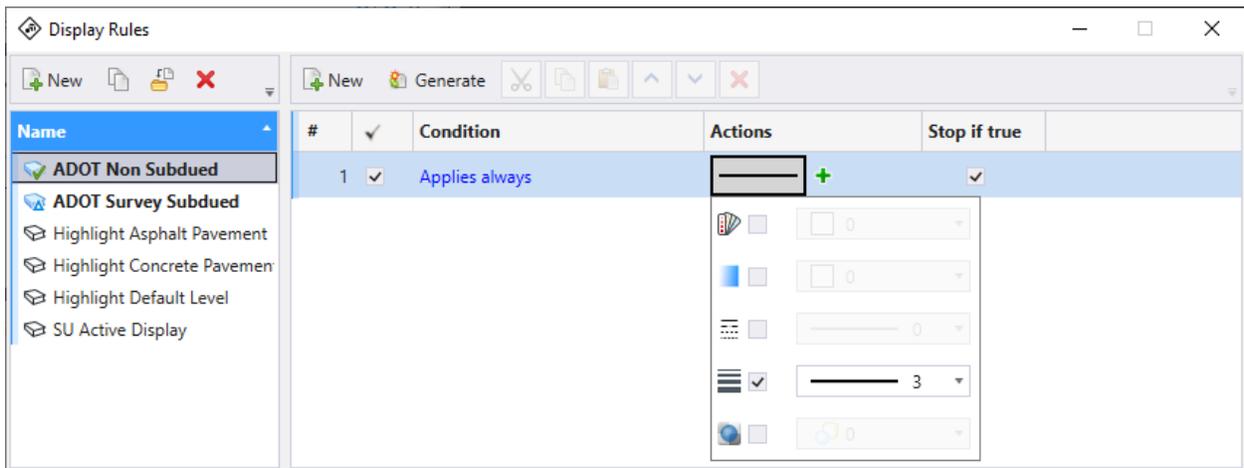

Select>ADOT Non Subdued

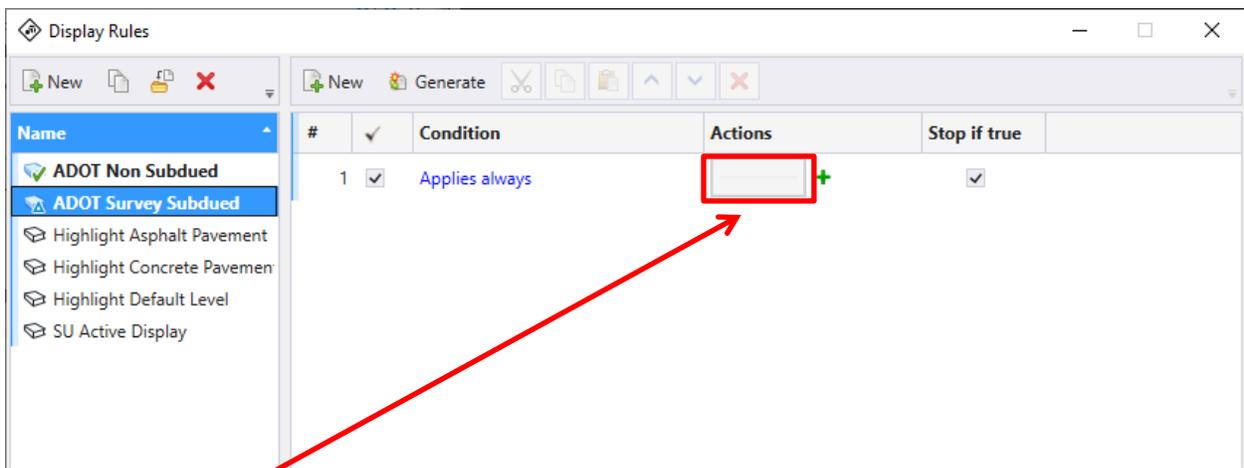

Select the Actions

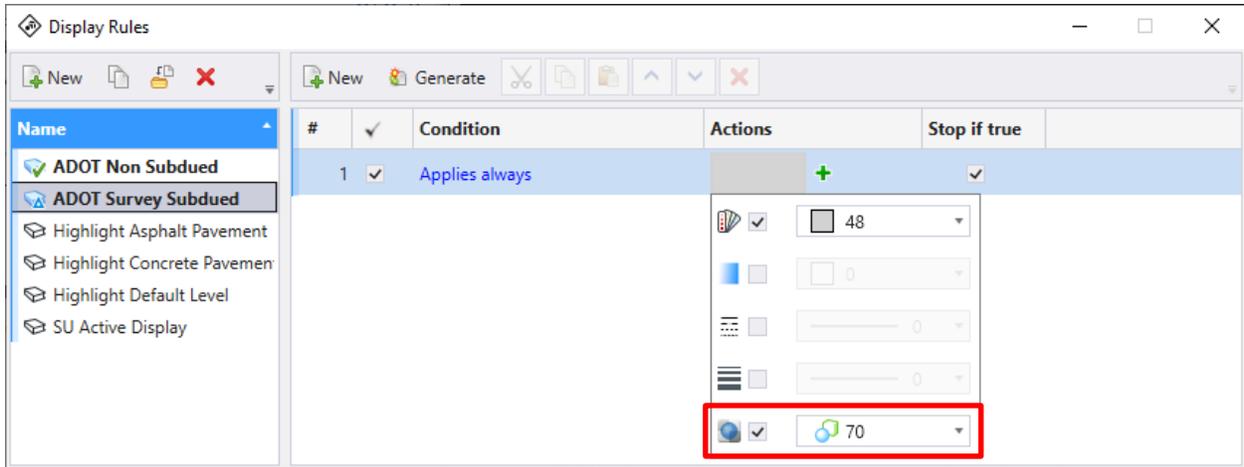

Toggle Off Color

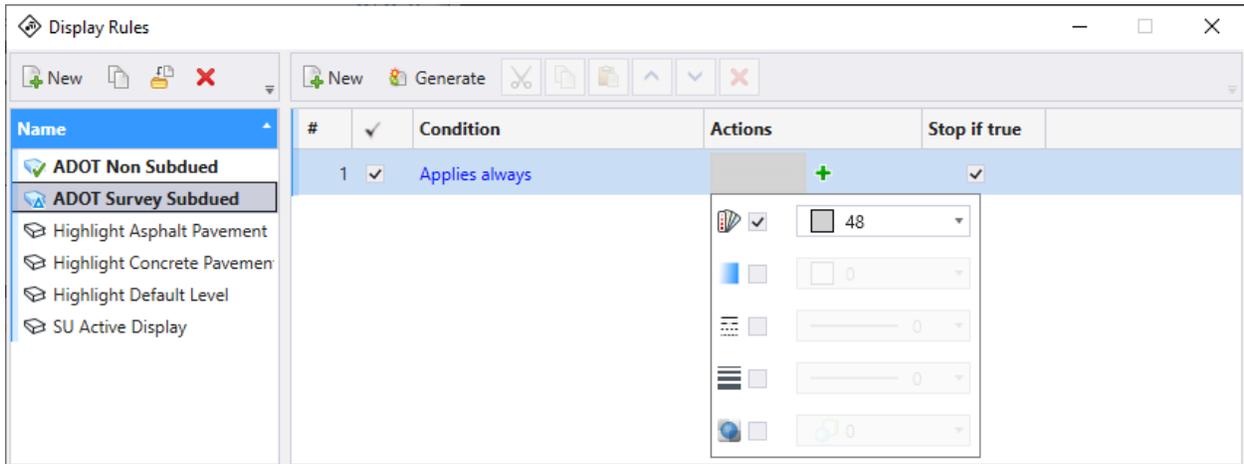

Select>ADOT Survey Subdued

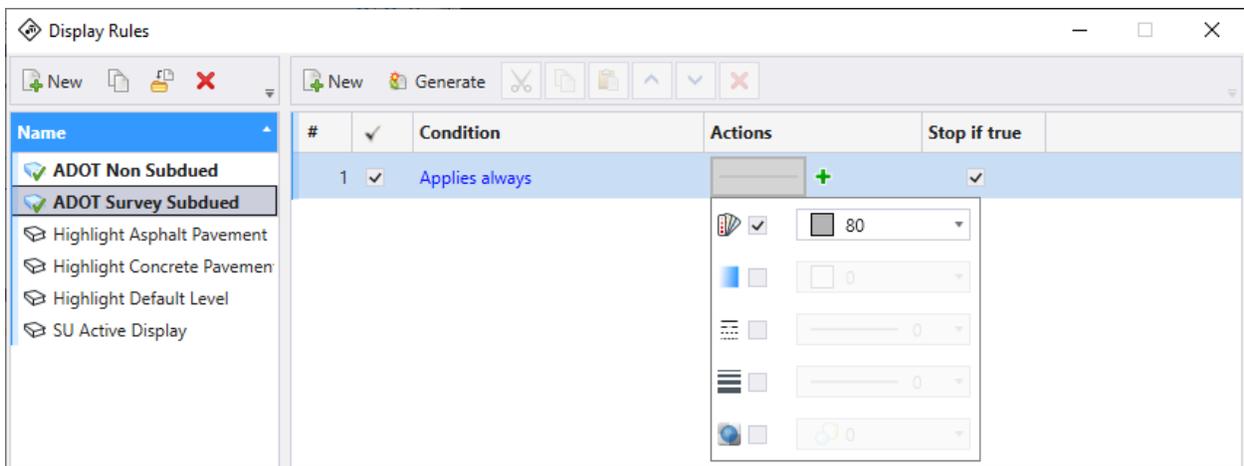

Select the Actions

Set Transparency to 0 then Toggle Off Transparency
 Hint: When picking 0 select outside of the transparency box

Set color to 80

Close the Display Styles dialog box

Zoom out
