SENT ON BEHALF OF MICHAEL DENBLEYKER, STATE ROADWAY ENGINEER

TO ALL USERS OF THE ADOT ROADWAY DESIGN GUIDELINES

RE: FEBRUARY 2022 REVISIONS TO THE 2021 ROADWAY DESIGN GUIDELINES

Revisions affecting access control limits along crossroads at traffic interchanges have been added to the 2021 Edition of the Roadway Engineering Group Roadway Design Guidelines. The revisions are listed in the "Revisions and Amendments" section of the on-line manual located on the Roadway Engineering webpage at <https://azdot.gov/business/engineering-and-construction/roadway-engineering/roadway-design/roadway-design-guidelines>. Owners of paper copies are encouraged to insert the attached revised pages in their manuals. Please use this updated guidance for projects initiated on or after February 1, 2022.

We continue to welcome feedback from the users of this manual as it greatly contributes to the guidance provided herein. Contact Chris Cooper, Roadway Standards Engineer at 602-712-8365 if you have any questions or comments.

Thank you for your attention to the February 2022 revisions. Please distribute this memo to all design personnel, project managers, consultants and other users within your Groups and Districts.
