

NOTES:

1. See 4-M-1.01 for crosswalk and stop line details.
2. Use R3-5 or R3-6 series for overhead mounted sign installations.
3. The spacing between arrows, or arrows and words, should be a minimum of 32'. This spacing may be increased to a maximum of 80' to adjust to conditions.

Typical maximum spacing for arrows(s):

Legend:

- L = Length of turn lane stripe.
- A = Distance between markings.
- ↔ = Quantity of left and or right turn arrow pavement markings.
- ONLY = Quantity of "ONLY" pavement markings.

L	↔	ONLY	A
68'-107'	1	1	32'
108'-204'	2	1	$\frac{L-44}{2}$
205'-292'	3	1	$\frac{L-52}{3}$
293'-380'	4	1	$\frac{L-60}{4}$

DO NOT SCALE
